

APPLETON

RETIREMENT COMMUNITY

*A Midwest Senior Living Affiliate*

**Life enrichment, loving care and family;  
Sara, Colleen and Joyce epitomize the goal of  
Appleton Retirement Community  
to passionately enrich the lives of seniors.**

## **Meet Sara, Colleen and Joyce.**

Three generations of one family enjoy the benefits of Appleton Retirement Community. Colleen and Sara joined the Appleton Retirement Community family in 2001, and are devoted to the health and welfare of our residents.

Sara, who works with prospective residents and their families, enjoys seeing people's lives change when they move to Appleton Retirement Community. Colleen works in the Life Enrichment Department, and finds great satisfaction in finding ways for new residents to connect with others and engage in the various fun opportunities that are available here.

In 2012, after losing her husband of 60 years, Joyce made the move to Appleton Retirement Community where she could maintain her independence. Her family realized there would be no better way to fulfill their promise to care for her than to encourage Joyce to join others of her age and interests in the warm and caring environment provided by the Appleton Retirement Community. Joyce made new friends right away and now lunches with them daily. Her social calendar is full with countless bus trips on the community bus, daily exercise, bingo and other games, socials and walks.

Joyce and her family are glad she adjusted so quickly and know she made the right move.
